HI-FI
RACKS
LIMITED

Exacting standards in Audio

Family run business Hi Fi Racks Ltd is passionate about providing clients like you with specialist Audio Visual equipment, uniquely styled to compliment your living space without compromising acoustic performance.

Using only the finest quality hardwoods from around the world we have developed an upgradable and highly adaptable system to match and grow with your changing Hi Fi system requirements.

We pride ourselves on first rate customer care and have always strived to perfect our designs through the positive feedback we have received from happy customers.

All the products you will see in this brochure are lovingly handcrafted right here in the UK by our dedicated team with a strong focus on individual client requirements and ultimately your satisfaction.

Frequently Asked Questions

Can I have the rack made to fit a certain size?
We manufacture the racks in Rutland so you can have them made to any size you want

How do I work out the leg height I need?
The leg height is the measurement of the wooden leg plus the 15mm spiked foot. So this is the internal height from the top of one plinth to the underside of the next.

Will my rack come with floor protectors?
Yes, you can use these on wooden flooring etc., to protect your floor from the spikes of the base tier of your rack.

How can I find out the internal width of my bespoke unit?
From your chosen external width take off the measurements for the leg and a 10mm inset on either side (46mm + 46mm + 10mm + 10mm) 112. This will give you the internal usable width of the unit.

How are the items Priced?
All racks and storage are priced per tier – each tier comprises a set of 4 legs, appropriate fittings and 1 plinth

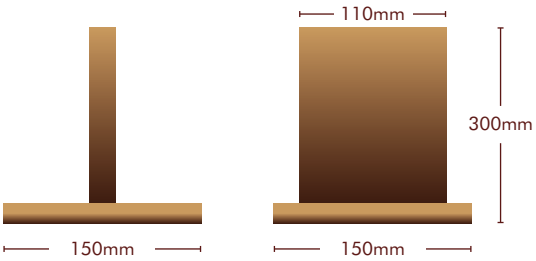
Care Instructions

Hi Fi Racks Ltd only manufacture from the best real Hardwoods available no MDF or veneer so please take time to read the following timber care instructions for our hand crafted furniture:

- As the surface has a natural wax finish great care should be taken to avoid any liquids being spilt onto the surface as this may mark the furniture. Any spills should be wiped away immediately using a dry cloth and the surface re-waxed as required.
- Avoid exposing the furniture to excessive heat or direct sunlight as this will cause cracking and discolouration of the timber.
- For everyday care, wipe with a dry cloth or duster. To achieve a premium finish, regularly apply a natural beeswax polish, using a dry cloth and buff up ensuring any excess wax is removed.

Hi Fi Racks Limited - 'Podium' is a registered trademark of Hi Fi Racks Limited.
All products available from Hi Fi Racks Limited are 'design protected'.
Specifications may be superceded but are correct at the time of going to press.
Material colours may vary from the examples photographed and displayed within this publication.

Headphone Holders



Headphone Holders	Available in: Oak, Cherry, Maple, Walnut, Mahogany, Satin Black and High Gloss Black

Bespoke Service

We believe that one size does NOT fit all! each and every racks is individually handmade on site at our own premises.
That means we can tailor our designs to match your exact requirements.
